

Joe Lee  
Director & General Manager  
WAER FM  
795 Ostrom Ave  
Syracuse, NY 13244-4610

Ladies and Gentlemen,

I write to you on behalf of WAER FM and its 45,000 weekly listeners in Syracuse, NY. I urge the Commission to approve the use of supplemental audio channels (SAC). The potential service that SAC's could deliver is immeasurable. The WAER staff is currently discussing the potential service and ways in which we could enrich our community with cultural and educational programming. The Syracuse community has a growing immigrant population. With a supplemental audio channel, WAER could provide a wider service to currently underserved populations. To do so by acquiring other channels would be cost prohibitive. I urge you to adopt the use of this technology so that WAER and other public broadcasters can deliver more meaningful program choices to the communities that we serve.

Sincerely,

Joe Lee  
Director & General Manager
